Student projects in service of the larger community
 Several MCRP courses go beyond the theoretical and apply student knowledge to real-world projects: problems that need solving in Metro Vancouver.
 In MCRP's Planning Studio, students partner with local community, municipal, and private-sector organizations to identify problems and prepare formal proposals feasible solutions. SCARP MCRP's most recent final presentations introduced for consideration the following proposals in service to their respective partner organizations:

- "A Resilient Future for All"
- "Climate Tools for BC Local Governments"
- "Equity in Zoning"
- "Ethical Space for Indigenous-Non-Indigenous Partnerships"
- "Homelessness Action Strategy"
- "Infill Housing Vision"
- "Moving Beyond the Car"
- "Retrofitting Suburbia"

**Note: the majority of students obtain certification through the Canadian Institute of Planning (CIP).
 Because the majority of SCARP alumni practice in Canada, they seek professional designations with PIBC and CIP (Registered Professional Planner (RPP) and Member Canadian Institute of Planners (MCIP) titles). The table below shows the number of graduate students who are fully certified by PIBC and CIP, and those who are on the path to receiving their certification (pre-candidate/candidate stage). See this link for the PIBC designation process.*
