Student projects in service of the larger community

Several MCRP courses go beyond the theoretical and apply student knowledge to real-world projects: problems that need solving in Metro Vancouver.

In MCRP's Planning Studio, students partner with local community, municipal, and private-sector organizations to identify problems and prepare formal proposals feasible solutions. SCARP MCRP's most recent final presentations introduced for consideration the following proposals in service to their respective partner organizations:

- "Humane Access to Public Washrooms"
- "Paving the Way for an Equity Strategy"
- "From Cars to Corridors: Land Use Strategies for Transit-Supportive Corridors"
- "UBC Okanagan Climate Adaptation, Resilience & Biodiversity Strategy"
- "Strengthening Tenant Protections in Redevelopment"
- "Reimagining Food Systems for a Sustainable and Equitable Future"
- "Advancing Air Quality and Climate Co-Benefits in the Prince George Airshed"
- "Innovative Low Income Housing Options for Women"
- "Shifting Toward Transit in Squamish"
- "A New Vision for the Central Waterfront"

Notes:

*Because the majority of SCARP alumni practice in Canada, accordingly the majority seek professional designations with PIBC and CIP (Registered Professional Planner (RPP) and Member Canadian Institute of Planners (MCIP) titles). The table below shows the number of graduate students who are fully certified by PIBC and CIP, and those who are on the path to receiving their certification (pre-candidate/candidate stage). [See this link](#) for the PIBC RPP certification process.
