**Student projects in service of the larger community**  
 Several MCRP courses go beyond the theoretical and apply student knowledge to real-world projects: problems that need solving in Metro Vancouver.  
 In MCRP's Planning Studio, students partner with local community, municipal, and private-sector organizations to identify problems and prepare formal proposals feasible solutions. SCARP MCRP's most recent final presentations introduced for consideration the following proposals in service to their respective partner organizations:

- "Creating a Roadmap for Growth and Climate Change"
- "Mitigating Urban Heat Islands: the Intersection between Built Form, Policy, & the Urban Heat Island Effect"
- "Enabling Car-Light Living in Transit-Rich Neighbourhoods"
- "Granville Island: Enhancing a Public Market Experience"
- "Advancing Sustainable Development with Salmon-Safe BC"
- "Promoting Livability on Gambier Island"
- "Bus Priority in Motion: an Implementation Toolkit for Metro Vancouver"
- "Enforcing Tenant Relocation Rights: a Catalogue of Tools for BC Municipalities"
