

CMHC-GRANVILLE ISLAND:

ENHANCING

# A PUBLIC MARKET EXPERIENCE

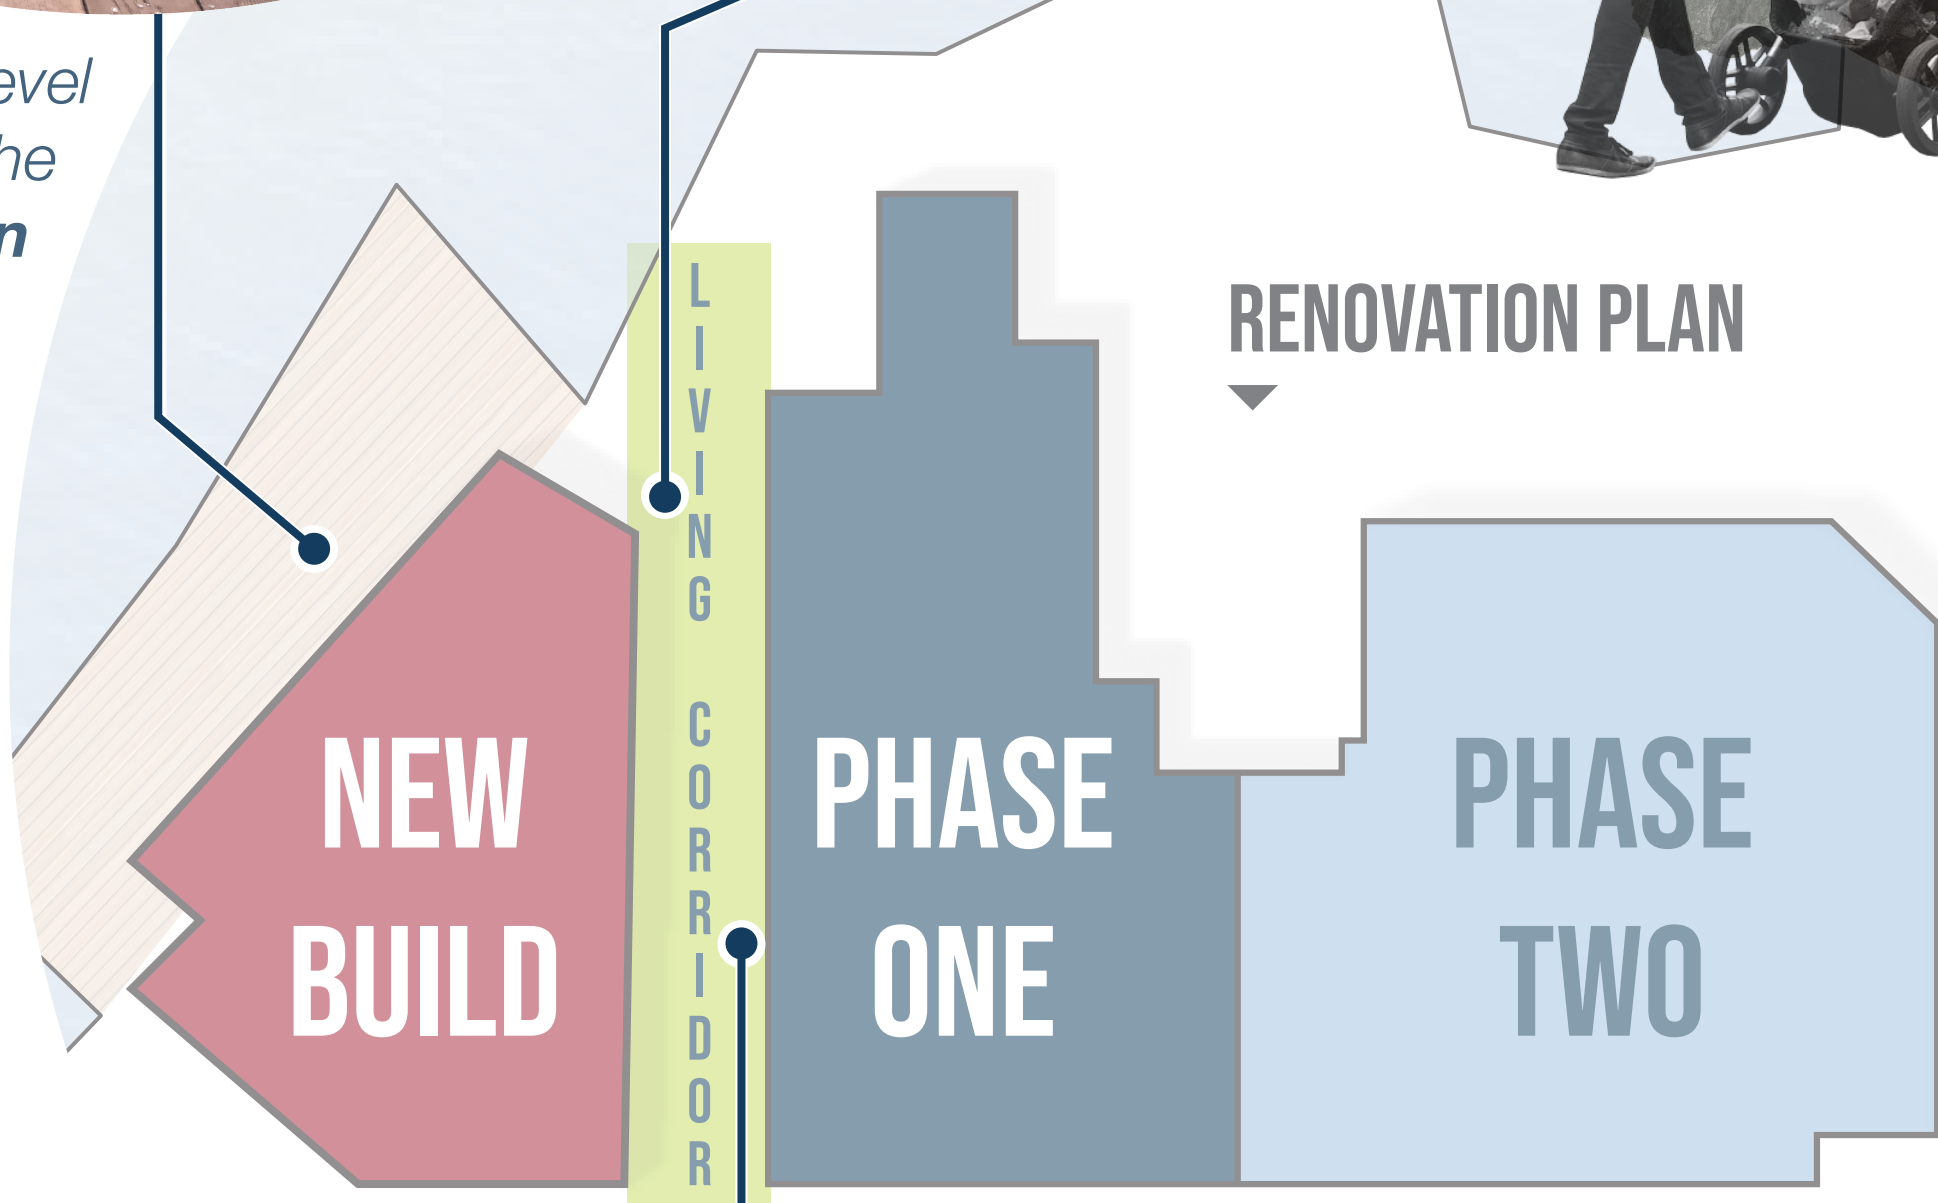

Cantilevered second-level seating maximizes the excellent **downtown and waterfront views**.

The **living corridor** is a bustling open-air, pedestrianized pathway connecting the two market buildings, while allowing for public waterfront access and the retention of mature trees.

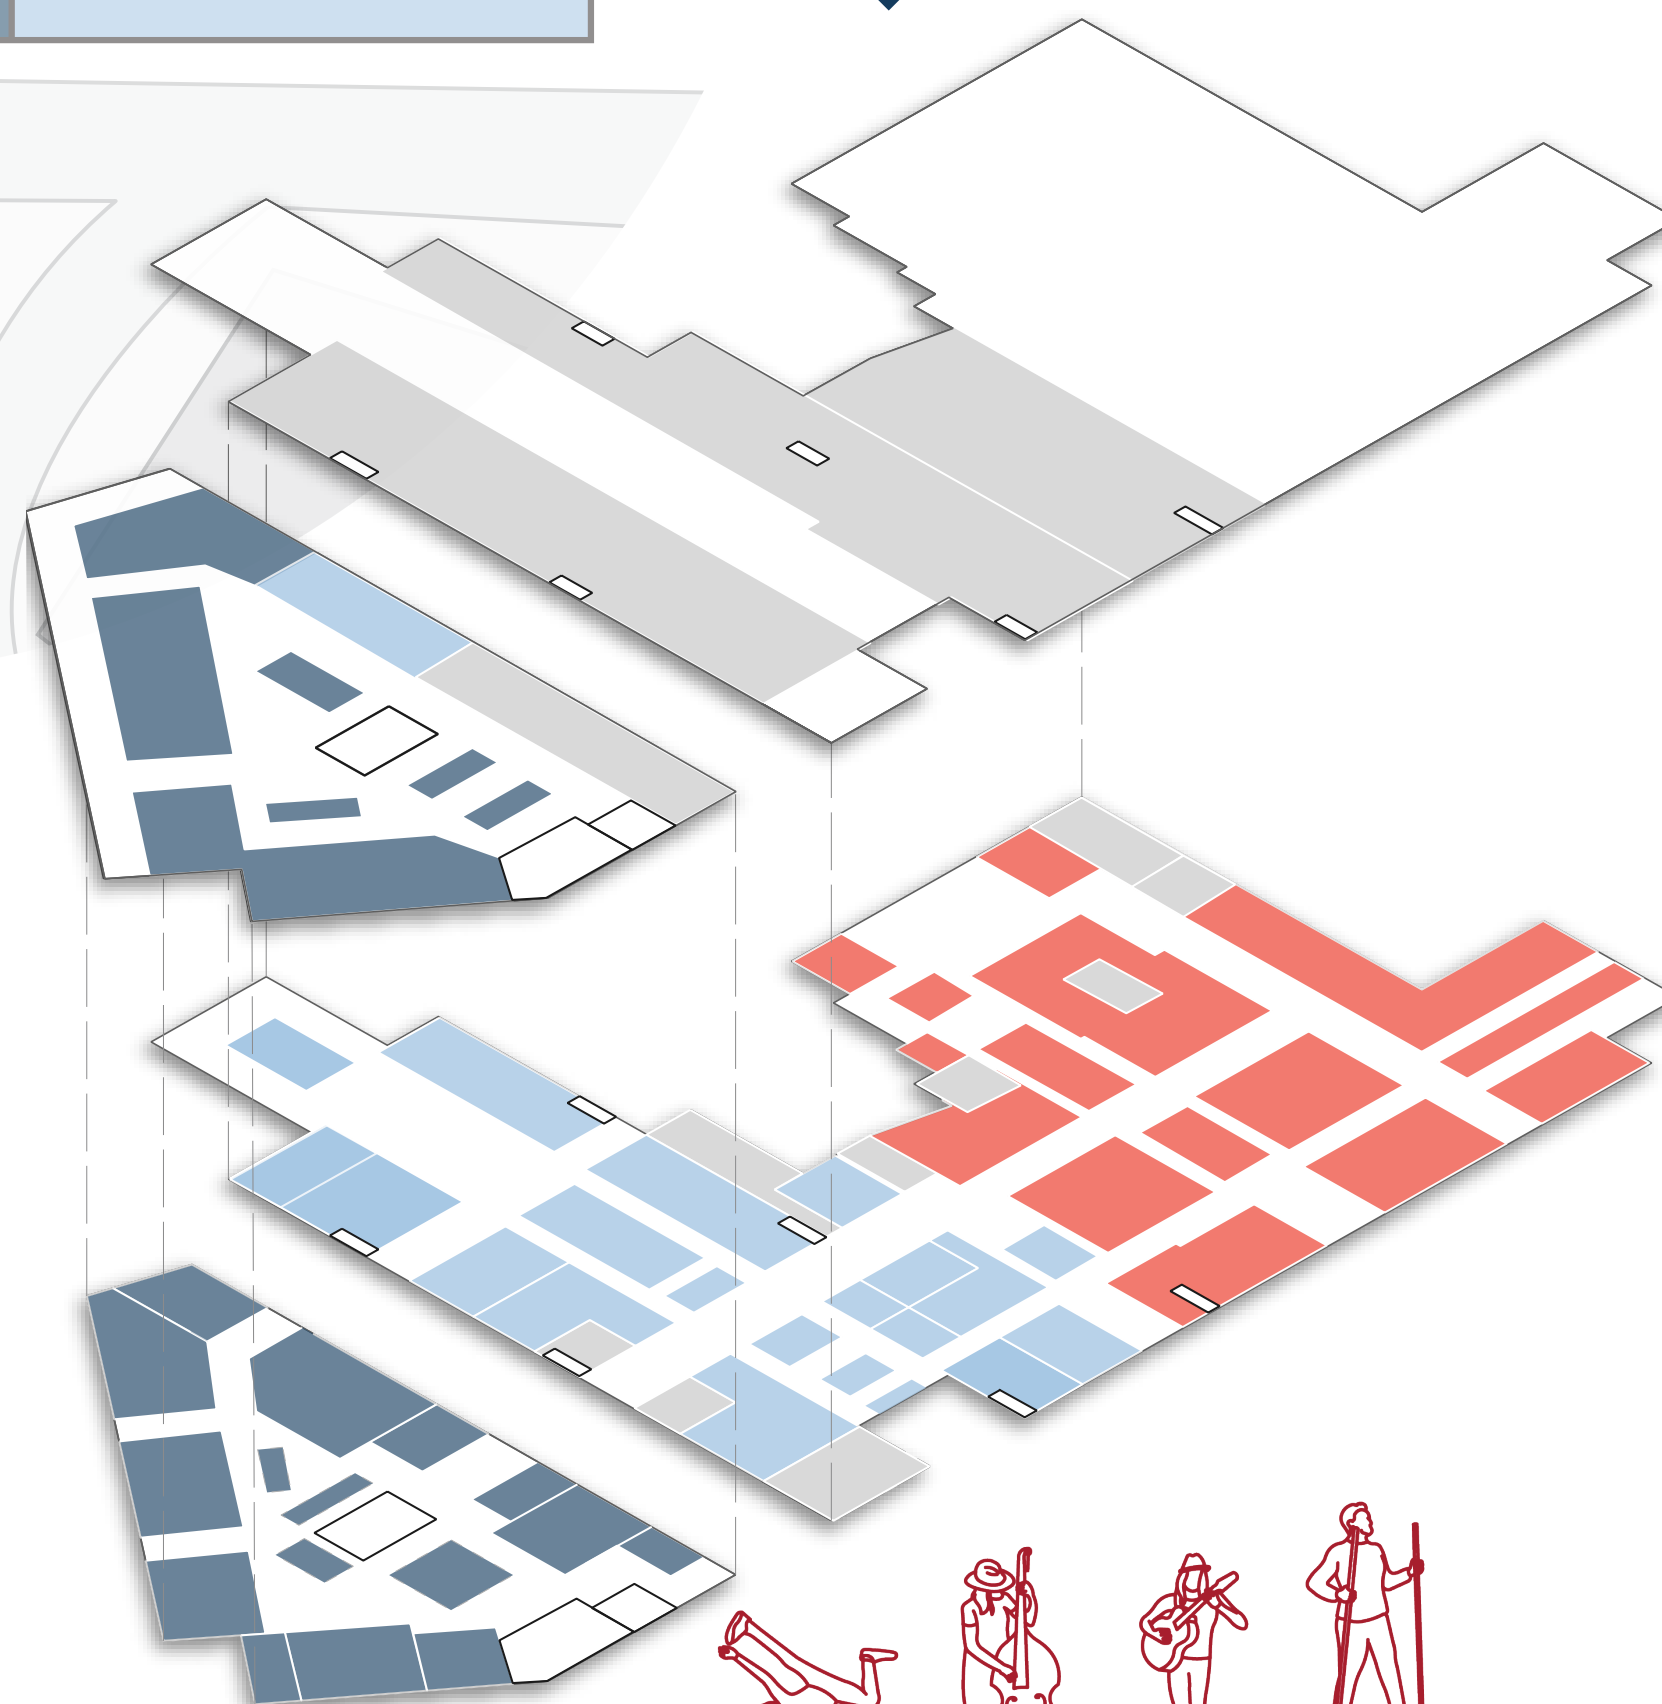

**Takeout windows** lining the living corridor allow market businesses to spill out into the surroundings and create an interactive visitor experience.

The relocation plan creates **24 new leasable stalls**, increasing asset value and generating significant new revenue.
